Skills

📌 PROGRAMMING AND WEB DEVELOPMENT

Python	7 Years
JavaScript	7 Years
HTML/CSS	8 Years
Django	5 Years
FastAPI	4 Years
Flask	5 Years
Pytest/unittest	5 Years
Rest API	5 Years
Web Scraping	7 Years
TailwindCSS	5 Years
Vue.js	4 Years

📌 DATABASES AND TASK PROCESSING

MySQL	7 Years
Postgres	7 Years
MongoDB	4 Years
Celery	5 Years
Redis	5 Years

📌 DEVOPS AND OTHER SKILLS

Docker	4 Years
Kubernetes	2 Years
Git	7 Years
Github Workflow	3 Years
Technical writing	6 Years
Cloud	4 Years

📌 LANGUAGES

English	Full
Polish	Native
Spanish	Professional
Portuguese	Professional

Work Experience

📅 12/2022 – PRESENT 📍 REMOTE

Backend Engineer Gcore

Stack: Python, Django, FastAPI, PostgreSQL, Celery, Redis, RabbitMQ, Docker, Kubernetes, Grafana

- Created a tool to better track errors, making it easier to fix bugs.
- Made new statistic endpoints points using FastAPI
- Led the creation of a REST API for a new product, offering advanced AI features for clients.
- Improved the workflow with new checks and task

Work Experience

monitoring using Grafana and Flower.

- Helped new team members settle in, improving teamwork and efficiency.
- Assessed acquired product, helping with designing and developing the integration.

📅 05/2022 – 11/2022 📍 REMOTE

Backend Software Engineer Lead Sherpa, Inc.

Stack: Python, Django, FastAPI, PostgreSQL, ElasticSearch, Celery, Redis, Docker, AWS

- Created new Django REST API endpoints, improving app functionality.
- Optimized slow components, enhancing app performance and user satisfaction.
- Updated outsourced legacy code, enhancing code quality.
- Developed features for internal tools, reducing ticket resolution time.
- Led new feature implementation in flagship product, aiding market success.
- Improved product quality by increasing test coverage.

📅 01/2021 – 04/2022 📍 REMOTE

Full stack developer Full Stack Developer NextPower Capital Advisors, LLC

Stack: Python, Django, Postgres, HTMX, JavaScript, Alpine.js, TailwindCSS, Docker

- Developed new parts of the website using Bootstrap, HTMX, and Alpine.js, which greatly improved the look and feel.
- Designed databases and REST APIs using Django and the Django Rest Framework, which made handling data more efficient.
- Improved code quality, increased test coverage, and simplified CI/CD pipelines, which led to better operational efficiency.

📅 03/2020 – 01/2021 📍 GERMANY

Full Stack Developer GigB GmbH

Stack: Python, Django, Postgres, Celery, Redis, JavaScript, Vue.js, TailwindCSS, Docker

- Developed a CRM/CMS for the music/events industry.
- Created a tool for easy professional band website

Work Experience

- construction.
- Expedited project timelines with a quickly implemented Application Dashboard.
- Enhanced data management with efficient database models.
- Improved app functionality/compatibility with a Django Rest Framework REST API.

📅 08/2019 – 03/2020 📍 UK

CrowdEngage Full Stack Developer

Stack: Python, Django, Postgres, Celery, Redis, JavaScript, Vue.js, TailwindCSS, Docker

- Developed an Application Dashboard with TailwindCSS and Alpine.js for enhanced UI/UX.
- Improved data management with effective database models.
- Increased app functionality with a robust REST API using Django Rest Framework. Introduced testing coverage, CI/CD pipeline with code checks and tests.

📅 08/2017 – 08/2019 📍 POLAND

Full stack developer Freelance

Stack: Python, Django, Flask, Pyramid, MySQL, Postgres, Celery, Redis, RabbitMQ, JavaScript, Vue.js

- Created unique web applications and REST APIs for international clients.
- Expedited initial product versions for quicker market testing.
- Established advanced web scraping systems for efficient data collection.

Education

📅 09/2017 – 05/2018 📍 EDINBURGH, UK

Computing | Bs (unfinished due to already finding work in the industry) Edinburgh Napier University
